To whom it may concern

Reference: Moving of Fintech offices from Bedfordview to Greenstone Hill

Fintech (Pty) Ltd move to new premises at the beginning of December 2009. The interior designers, Wilde at Heart recommended we make use of Move It to perform the move. We had several meetings to discuss our requirements and decided to use a colour coded system for all departments. "Move leaders" were identified in each department and Move It trained them in preparing the boxes and furniture which instilled a lot of confidence in the whole process.

On the moving day, Move It team arrived on time and accommodate Fintech (Pty) Ltd requirements and start moving as per agreed process. At the new premises all furniture and boxes were placed in the correct area with no damage to any assets. The move was completed in the time agreed with minimum disruption to business. The move was completed within the agreed budget.

Please feel free to contact me for more information.
