28 February 2012

To whom it may concern,

This serves that MoveIT moved Vodacom equipment (11 Racks) from Hatfield MSC to Rosslyn MSC from the 14th February 2012 to the 15th February 2012. During the preparation of the move and the physical move, MoveIT team was always on time very efficient on what they do and always willing to help where possible.

Vodacom found MoveIT technique of running their tasks (bubble wrapping and packing) parallel to that of the decommissioning engineers very effective and time saving. The equipments were handled and loaded with extra care and all equipments were delivered in our Rosslyn site safe. We can then recommend MoveIT to be a preferred IT equipments mover.

Yours faithfully
